Fresher breath in a bite-sized chew

This supplement for dogs addresses bad breath at the source—the digestive system—rather than masking it. Effective ingredients encourage a healthy balance of bacteria and reduced odor from waste matter, in addition to fresher breath.

ABOUT THE INGREDIENTS:

- ▶ **Spirulina** is a type of freshwater algae that is an excellent source of omega fatty acids and chlorophyll. Chlorophyll is the pigment that gives plants their green color, but it can also combat and reduce stinky breath.
- ▶ **Cinnamon powder** helps to promote a healthy balance of bacteria in the mouth, which leads to fresher breath. It also adds a subtle boost of flavor that dogs enjoy.
- ▶ **Yucca schidigera extract** comes from plants in the Mojave Desert, and is often found in pet foods. It can help reduce the intensity of odors of both the mouth and stools.
- ▶ **Champex® champignon mushroom extract** helps to support a healthy balance of bacteria and chemicals in the GI tract, which can improve breath and overall body scent.
- ▶ **Parsley** is another excellent source of chlorophyll, which offers a variety of supportive benefits for dog health, including addressing bad breath and waste odors.

Product Facts:

Active Ingredients Per 1 Chew:

Spirulina	100 mg
yielding Chlorophyll	2 mg
Parsley	70 mg
Champignon Mushroom Extract (Champex® brand)	30 mg
