

# LAWN SUPPORT

WITH CRANBERRY AND YUCCA SCHIDIGERA EXTRACT

**YOUR LOGO  
HERE**

## Chicken-liver-flavored chews help support bladder health and prevent lawn burn

This urine health supplement for dogs helps support balanced levels of ammonia and nitrogen in urine, and helps promote a healthy urinary pH. Urine with lower levels of these chemicals is less likely to cause discoloration of grasses (or "lawn burn") due to frequent urination.

### ABOUT THE INGREDIENTS:

- ▶ **Methionine** is a naturally occurring amino acid that is often used to support urinary tract health. It can also affect the pH of urine, thereby reducing damage done to grasses and plants.
- ▶ **Cranberry** is rich in antioxidants and vitamins to support urinary tract health along with overall wellness. It also acts as a mild diuretic to help keep the urinary tract healthy and encourage hydration.
- ▶ **Yucca schidigera extract** comes from plants in the Mojave Desert, and is often found in pet foods. It can help maintain normal levels of ammonia and nitrogen in urine.
- ▶ **Brewer's yeast** is an excellent source of protein, vitamins, and minerals and is often used to enhance palatability of foods, treats, and supplement chews.

### DIRECTIONS FOR USE:

Give 1 chew per 20 lbs of body weight, daily.

Available in 8oz (70 ct) and 14oz (150 ct) jars.  
Suitable for all weight ranges.

### Product Facts:

#### Active Ingredients Per Chews:

Brewer's Yeast	300 mg
Methionine	150 mg
Cranberry Extract	50 mg
