## Tasty formula that's rich in Omegas for healthy skin and shiny coat

This skin and coat supplement uses beneficial oils and vitamins to nourish dogs' coats (regardless of hair type) and support strong, healthy skin. Vegetable flavoring is appropriate for dogs with sensitivities to protein.

### ABOUT THE INGREDIENTS:

- ▶ **Salmon oil** is one of the most well-known ingredients to support skin and coat health. This natural cold-water fish oil is a major source of Omega-3s, including Eicosapentaenoic acid (EPA) and Docosahexaenoic acid (DHA)—two fatty acids particularly well-suited to support healthy skin and coat.
- ▶ **Flaxseed meal** has a number of benefits. It offers important vitamins and minerals, along with antioxidant properties. The oil in flaxseed meal is also rich in Omega-3 fatty acids, specifically Alpha-linolenic acid (ALA). ALA helps support skin health and overall heart and body health.
- ▶ **Safflower oil** is rich in essential Omega-6 fatty acids, including linolenic acid, which are an important part of healthy cell function and reproduction. Dogs need these fatty acids to sustain hydrated skin and soft, full coats.
- ▶ **Vitamin E** is an antioxidant that's essential for healthy skin. Poor skin health can lead directly to poor coat quality—Vitamin E combats free radicals to protect skin from damage. It can also increase the efficacy of Omega fatty acids and support a healthy inflammatory response to keep skin feeling comfortable.

### DIRECTIONS FOR USE:

Give 1 chew per 25 lbs body weight, daily.

Available in 8oz (70 ct) and 14oz (120 ct) jars.  
Suitable for all weight ranges.

### Product Facts:

#### Guaranteed Analysis Per 1 Chew:

Crude Protein	11%
Crude Fat	13%
Crude Fiber (max)	1%
Moisture (max)	12%
Linoleic Acid (3.3%) (an Omega 6 Fatty Acid)	60 mg
Vitamin E	25 IU
*Omega 3 Fatty Acids (1.2%)	20 mg
*Omega 9 Fatty Acids (1.5%)	26 mg
